Education

Moscow, Russia	National Research University Higher School of Economics	Fall 2017 – Present
<ul style="list-style-type: none">• Will be graduating in 2021 with a BS degree in Computer Science• Main courses: Linear Algebra, Algorithms and Data Structures		
Sochi, Russia	Scholarship at “Sirius”	January 2017
<ul style="list-style-type: none">• Mathematics and Informatics training		

Work Experience

Moscow, Russia	Software Engineer Intern at Yandex	July – October 2018
<ul style="list-style-type: none">• Developed a Machine Learning library for extracting main content from a web page. This library is used in production		
Innopolis, Russia	Competitive programming teacher	July 2017
<ul style="list-style-type: none">• Lecture topics: Dynamic programming, Max-Flow, Combinatorial game theory, etc		

Personal technical projects

- **Scheduler** (2017) – an application that makes a schedule for schools or universities using simulated annealing. Designed for VK Cup 2017 - Wild Card Round 2 (C++)
- **Online Contest for School Students** (2015) – designed the architecture that generates random variations of sets of questions (Python, Django)
- **Antiplagiarism** (2015) – developed a script that detects plagiarism in competitive programming for VK Cup 2015 - Wild Card Round 2 (C++)

Additional Experience and Awards

- **Prizewinner** of the National Informatics Contest (2017)
- **Winner** of the Regional Informatics Contest (2017)
- **Silver medal** in the International Tournament in Informatics (2016)
- **Bronze medal** in the Open Programming Contest for School Students (2017)
- **Winner** of the Interregional Informatics Contest for School Students “Vishaya Proba” (2017)
- **Winner** of the Informatics Contest for School Students “Lomonosov” (2017)

Programming Skills

Languages

- Upper intermediate: C++
- Intermediate: Python

Technologies and software

- **Python Frameworks/Libraries:** Django, numpy, pandas, scipy, matplotlib
- **OS:** Linux, Windows

About me

- Software Engineer with a real world experience from the Yandex internship. I work with passion on interesting hard problems, I’m not afraid to tackle them and be responsible for driving the solution to a finished state
